TEST PREP WITH RENEE LLC

ACT Prep Programs for Schools, Districts, & College Access Programs

Two ways to partner: student ACT workshops & educator professional development

PROGRAM 1 — In-School ACT Prep Workshops for Students

DESCRIPTION OF SERVICES:

The ACT changed its format — new timing, new question counts, and a reweighted scoring structure. This workshop gives students an accurate, current, and confidence-building foundation for the test they'll actually take, delivered on-site and built to fit inside your existing school day.

Audience: High school students, grouped by achievement level (not randomly assigned)

Session Length	2.5 hours per workshop
Daily Capacity	Up to 2 sessions per day — ~25 students per session, negotiable
Format	On-site at your school's facility (virtual option available for remote students)
Focus*	English, Math & Reading — the sections that determine the Enhanced ACT Composite

**Additional English and math only workshops available.*

KEY OUTCOMES FOR STUDENTS:

- A clear, current breakdown of the Enhanced ACT — timing, question types, and where points are actually won or lost
- Section-specific strategy for English, Math, and Reading, including the content and question patterns that is tested
- Timing strategies so pacing becomes a trained skill instead of a source of test-day anxiety
- A more confident, less overwhelmed approach to test day — for first-time test-takers and students retesting alike

PROGRAM 2 — ACT Professional Development Workshops : *Understanding the Enhanced ACT & Creating a Plan*

DESCRIPTION OF SERVICES:

A strong understanding of the ACT is essential for educators who are preparing students for college readiness. Participants will gain a clear understanding of assessment structure, content, pacing, scoring, reporting, and the college readiness benchmarks. The workshop also explores how to use ACT data to guide instructional decisions and support school and student improvement. Participants will develop goals and create a plan to embed ACT prep into their classroom at any grade level.

Audience: District & school leaders, instructional coaches, teachers, and college access coaches

Delivery options	In-person half-day (2.5 hrs) or full-day (two half-day sessions)
Capacity	Up to 30 participants per session
Customizable	Content and goals tailored to your school or district's needs

KEY OUTCOMES FOR EDUCATORS:

- A clear understanding of the Enhanced ACT's structure, scoring, and reporting
- Practical strategies for using ACT data to guide instructional planning and goal setting
- A concrete action plan to embed ACT prep into classroom instruction at any grade level
- Confidence communicating ACT information with students, parents, and school leaders

Interested in bringing either program to your school or district?

Contact me to schedule a quick call to talk through options— pricing based on per-day sessions tailored to your school's needs.
